*The Mission of the
California Kindergarten Association
is to foster the development of the whole child
by promoting best practices in teaching
and learning.*

The California Kindergarten Association (CKA) is an established network of educators and other concerned individuals who want kindergarten to be the best it can be. Members rely on our effective programs in staff development, scholarships, research, networking, public awareness and legislative issues.

CKA's success is built on the professionalism and creativity of its members as they strive for high quality kindergarten education. We invite you, as a member of a community of learners, to reflect on your profession and as a practitioner, to examine your practices.

CKA Members CAN...

Join hundreds of educators in supporting the only California association dedicated to Kindergarten. With this membership receive full benefits and services, including:

- Gain professional development by attending CKA's annual conference and workshops.
- Focus classroom planning by accessing CKA's easy to use, standards-based activities archives via the web.
- Stay informed about current legislative initiatives that impact classroom working conditions.
- Collaborate and network with thousands of other teachers.
- Advance the learning environment for students by supporting CKA's advocacy efforts at the state and national level.
- Save time by receiving personalized responses to professional practice questions from the vast network of experienced teachers.
- Develop leadership skills with opportunities to serve on state-level committees and task forces.
- Become an art contributor.

Yes, I want to join CKA!
