The Mission of the California Kindergarten Association is to foster children's early learning and development by promoting best practices and professionalism in teaching and advocating for high quality, developmentally appropriate early childhood education.

The California Kindergarten Association (CKA) is an established network of educators and supporters who understand the importance of high quality, early childhood education for all young children.

CKA's success is built on the professionalism and commitment of its Board of Directors, Committees, and members. Together we strive as professionals and practitioners to bring the best educational practices in early childhood education to all young children in our state.

CKA members receive master teacher level benefits and services, including:

- Opportunities for professional development through CKA's annual conference, regional professional development workshops (PDWs), and various other educational opportunities including access to current research on Early Education.
- Access to CKA's Common Core standards-based activities and preschool Foundations through the CKA website.
- Updated information about current legislative initiatives that impact early childhood education in California through email and eBlasts from our active Board of Directors.
- Unlimited access to networking with thousands of other early childhood teachers.
- Supporting CKA's advocacy efforts at the state and national level as a voice for our most vulnerable little people.
- Development of leadership skills with opportunities to serve on various CKA committees and Board.
- Member pricing for attending CKA events.
- Showcasing your classroom art projects in CKA's Annual Young Children's Art Exhibit at the California Kindergarten Conferences.

Yes, I want to join CKA!

Regular member \$40 \$ _____
